"When choosing a payroll system to manage our Northern Ireland staff, MegaPay was the natural choice, as we needed a payroll provider who could support both UK and Irish Payroll legislation."

"MegaPay has always addressed all of my payroll needs and certainly meets the payroll and HR requirements for Peter Mark."

Implementing MegaPay

Susan added, "The implementation of Intelligo's MegaPay UK payroll software was seamless as it is very user friendly. we were already familiar with the interface of the software from using the Irish version since 2004."

Improving Efficiency

"All reporting to the various payroll departments within Peter Mark has been streamlined; reporting is superior to the previous UK payroll package we had in place for a number of years."

“The importing of timesheet data, reporting on various pay elements such as job costing and grading has really helped to make our job easier.”

Susan added "MegaPay UK has also improved efficiency for Peter Mark's Payroll Department with regard to the UK statutory payments and deductions requirements.

These deductions such as Statutory Sick Pay, Statutory Maternity Pay and the Attachments of Earnings Order, all can be managed at the touch of a button."
