CASE STUDY

SOFTWARE LTD

intelligo

Ireland's largest hairdressing salon, Peter Mark has chosen Megapay to manage both their Northern Ireland and Republic of Ireland payroll needs and MegaHR to manage their HR requirements.

"When choosing a payroll system to manage our Northern Ireland staff, Megapay was the natural choice, as we needed a payroll provider who could support both UK and Irish Payroll legislation"

Susan Flynn, Payroll Manager, Peter Mark.

Background

Peter Mark was founded by Peter and Mark Keaveney in 1961, and opened its first salon on Grafton Street in Dublin.

Since then, Peter Mark has grown into Ireland's best known hairdressing brand and one of Europe's most successful hairstyling groups.

Peter Mark currently employs over 1500 staff in their 72 branches across Ireland.

Working with Intelligo

According to Susan Flynn, Payroll Manager for Peter Mark, "We have been successfully using Megapay since 2004 to manage our Irish Payroll needs and also Intelligo's integrated HR solution - MegaHR."

"When choosing a payroll system to manage our Northern Ireland staff, Megapay was the natural choice, as we needed a payroll provider who could support both UK and Irish Payroll legislation."

"Megapay has always addressed all of my payroll needs and certainly meets the payroll and HR requirements for Peter Mark."

Improving Efficiency

In addition, Susan said "All reporting to the various payroll departments within Peter Mark has been streamlined; reporting is superior to the previous UK payroll package we had in place for a number of years."

"The importing of timesheet data, reporting on various pay elements such as job costing and grading has really helped to make our job easier."

Susan added "Megapay UK has also improved efficiency for Peter Mark's Payroll Department with regard to the UK statutory payments and deductions requirements such as Statutory Sick Pay, Statutory Maternity Pay and the Attachments of Earnings Orders, all can be managed at the touch of a button."

Implementing Megapay

Susan concluded, "The implementation of Intelligo's Megapay UK payroll software was seamless as it is very user friendly, and we were already familiar with the interface of the software from using the Irish version since 2004."
