Allergan

MEGAPAY
OUTSOURCED

by INTELLIGO

Payroll Service you can Trust

Allergan chose Intelligo's managed payroll service, MegaPay Outsourced, to manage the payrolls for 1,200 employees in Ireland.

Background

Allergan is a multi-specialty health care company focused on discovering, developing and commercialising innovative products for the eye care, neuromodulator, skin care and other speciality markets, that enable people to live life to its greatest potential - to see more clearly, move more freely, and express themselves more fully.

Now in over 100 countries and employing 18,000 people worldwide, Allergan markets products that deliver value to its customers, satisfy unmet medical needs and improve patients' lives.

Allergan now uses MegaPay Outsourced to successfully manage the payroll for over 1,200 Irish employees.

The Outsourcing Process

When asked about the experience of moving to an outsourced provider Alan Flannery, Finance Director of Allergan, said:

"The outsourcing process went very well, we had a detailed implementation plan with a team who had done this many times, the challenges were our own systems of data collection and the extract reports that we use.

The timing of the project was also an issue at the time, as it was close to Christmas and Bonus period. We had too many things happening but it was very successful and we were happy with the overall process from MegaPay Outsourced".

Benefits of MegaPay Outsourced

Allergan also noted a number of benefits of using MegaPay Outsourced to manage their payrolls, these include:

- Control summary reports tailored to meet their SOX needs.
- An efficient and reliable service for Payroll Expertise.
- Excellent reporting and control packages.

"The payroll expertise of MegaPay Outsourced is a key benefit, as is the efficient and reliable service. Our payroll was previously in house but we're confident it's in good hands now."

Alan Flannery, Finance Director, Allergan.

1

Set monthly fee enables efficient budgeting.

2

No more hardware or software costs.

3

Consistent expertise from our Payroll Specialists.

4

Robust data security including disaster recovery.

5

Reduce risk of single point of exposure.
