MEGAPAY

by INTELLIGO

Payroll Solutions you can Trust

Mowi Ireland chooses Intelligo's Human Resource and Payroll Software – MegaHR and MegaPay to manage their HR and Payroll function.

Background

Mowi Ireland, formerly Marine Harvest Ireland, is a leading producer of Irish Organic Atlantic Salmon., with head offices based in Donegal.

Mowi Ireland operates in three regions, Donegal, Mayo and Cork, employing over 270 staff across the three regions. For over 40 years they have led the way in sustainable salmon farming.

Choosing Intelligo

According to Maurice Kelly, HR Manager "We were using Intelligo's smaller SME Human Resource software and a separate Payroll solution.

As MegaHR integrated with MegaPay, the corporate HR and Payroll solution from Intelligo, we decided this was the natural route to take as it simplified reporting and eliminated duplication of work.

Mowi Ireland has used and trusted Intelligo's previous products and reliable technical support therefore we chose to go with Intelligo rather than any of the other providers in the Irish market".

Meeting Our Requirements

"Linking Human Resource with Payroll i.e. MegaHR with MegaPay, we can pull out working hours reports, overtime hours and values, expenses, etc.

Maurice, added "This is very helpful during system and quality audits, i.e. pulling out training reports, etc."

Key Features

Maurice added, "The fact that MegaHR is deployed over an internet browser means that it is web-based which is very useful for our organisation due to the fact that we have sites in three regions in Ireland.

The software also allows for multi-users with full or partial access, which again is a great benefit".

Working with Intelligo

"I would recommend MegaHR and MegaPay as a Human Resource and Payroll Solution to other companies looking to change or update their HR and payroll needs."

“MegaPay and MegaHR seamlessly integrated with each other which simplified reporting and eliminated duplication of work.”
