

CASE STUDY

The National Rehabilitation Hospital

MEGAPAY

by INTELLIGO

Payroll Solutions you can Trust

The National Rehabilitation Hospital uses Intelligo's payroll software, MegaPay, to manage the payroll for 500 employees.

Background

The National Rehabilitation Hospital (NRH) provides comprehensive inpatient and outpatient services to patients, both adults and children, who as a result of an accident, illness or injury have acquired a physical or cognitive disability and who require complex medical specialist rehabilitation. Backed by over 50 years experience, clinical expertise and a solid reputation for excellence, patients are given every opportunity to meet their rehabilitation goals through personalised treatment plans delivered by the Interdisciplinary Teams at NRH.

The only service of its type in the country, it is a fully publicly funded hospital (with no private/semi private beds). The NRH operates on the ethos of providing high quality care and treatment to patients, irrespective of background or status, but on the basis of clinical need.

Choosing Intelligo

Brendan Martin, Payroll/Superannuation Manager for the National Rehabilitation Hospital, noted that they were driven to seek an alternative provider as they had outgrown their previous system. Brendan said, "When we went out to market for a new payroll package we found MegaPay to be the most innovative and forward thinking of all the payroll solutions we looked at. Our old system was adequate but after seeing what MegaPay could do we realised we needed to update our payroll processing.

The Reports Suite and easy access to older data was a big plus for us when making the decision to move to MegaPay. In making our decision we were encouraged to make site visits and talk to other users. We received positive feedback, which gave us the confidence to proceed."

Benefits

The National Rehabilitation Hospital have felt the benefits of using MegaPay such as:

- Timesheet Imports.
- Report Writer.
- Uploading data through Excel.
- Email Payslips.
- Integration with other business systems.
- Reduction in manual processing.

Working with Intelligo

A long term client of Intelligo, the National Rehabilitation Hospital rates MegaPay's outstanding quality, service and value as the highest features when using the software. Brendan also commented on Intelligo's IT Director, John Kellegher's dedication to the project "John Kellegher is a genius, particularly in the simple way he explained everything during the transition. He also set up the transfer of payroll information to our finance package and it has worked seamlessly ever since."

“Timesheet imports and the ability to upload data through Excel was a huge change for the NRH and a very positive one at that.”

Brendan Martin, Payroll/Superannuation Manager, National Rehabilitation Hospital
